3 Work experience:	
3a self-employed	
1997-now	HR Consultant and developer of sophisticated career management tools
	working with Personal Potential, an online career consultancy with a
	psychological background for professionals who want to improve their
	working situation or are seeking personal development by analyzing their

competences and career opportunities. The career consultancy is based on

the PPA and the online Success Indicator; both HR tools make use of the psychological model MBTI.

• Providing HR consultancy to labour market intermediaries, who made use of the PPA and the online Success Indicator by means of a licence.

#### Main tasks related to HR Consultancy:

- Analyzing and interpreting the candidates' psychological profiles.
- Generating and editing the personalized psychological profile reports.
- Providing career consultancy to the candidates making use of the PPA or the online Success Indicator based on MBTI.
- Developing and giving career management courses to higher educated young professionals based on the PPA Personal reports and the MBTI.
- Continuous development of new career management tools and updating and optimalization of existing tools using HTML, php, Dreamweaver.
- Web editing and translation: creating new web pages & online Marketing campaigns; writing inspirational articles.
- **Executive search** for candidates for specific positions within different segments of the labour market in collaboration with previous selected recruitment firms.
- Providing the online sophisticated HR tools to our licence holders. See table below

service	company	country	period
Licence Job Selector ( <u>Banenkiezer</u> )	One of the largest health insurance companies in the Netherlands uses the Job Selector " <u>Banenkiezer</u> " to streamline the current reorganization, in which the supernumerary employees are assigned new, similar jobs in another department or start working with another company. <i>Success-rate&gt; 80%.</i>		2012- present
Licence Talent Meter	BouwTalent	NL	2010- 2012
